

# INDUSTRIAL AIR CLEANERS T-SERIES

**APPLICATIONS:**  
 Welding Smoke/Fumes  
 Oil Mist  
 Diesel Smoke  
 Grinding Dust  
 Wood Dust  
 Composite Dust  
 Other Nuisance Dust  
 Vapors

T7500 with filter saver pads

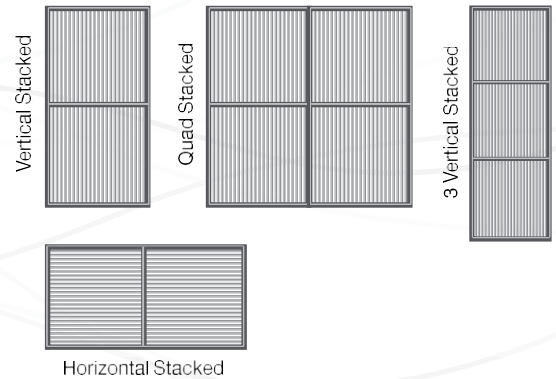

T3000

## BREATHE EASY WITH PRACTICAL, ENERGY-EFFICIENT AIR FILTRATION SOLUTIONS FROM INDUSTRIAL MAID

The T-Series Industrial Air Purifiers are designed for fume extraction, welding smoke collection, industrial dust extraction, oil mist filtration and the capture of most airborne nuisance dusts, mist and vapors. These simple effective units have a two stage filtration system; Merv 7 pre-filters and Merv 15 multi-pocket main bag filters. Additional pre-filter options include filter saver pads, spark baffles and a variety of other filter media designed to match the size and type of dust particles.

The interior frame is a rugged powder coated 14 ga. steel. The cabinet shell can be a powder coated steel or an environmentally friendly 3/16" black matte recycled polyethyleneplastic.
